

MASTERING PRESENTATION SKILLS MASTERCLASS

Is your
body language
sabotaging
what you are
trying to say?

Research shows that people are more likely to respond to the nonverbal aspects (80-90%) of communication rather than the literal words.

*So, why don't we put 80-90% of our energy into understanding **how** information is being communicated, instead of focusing only on **what** is being said?*

LEARN THE PRESENTATION SECRETS OF THE MASTERS

In this highly engaging and interactive two-hour Presentation Skills Masterclass, we use a seven-step **Micro Mechanics of Presenting** model to examine visual patterns, auditory patterns, kinaesthetic patterns, and breathing patterns to help us master presentation and delivery.

With practical and easy to apply skills, your speaking confidence and ability to inspire others will never be the same again.

"As a speaker and facilitator, Nikki is world-class. She recently spoke at the Speakers Tribe 2021 Global Conference to standing ovations."
